

TICKETS FOR HORSE SHOW

Those for Saturday Matinee
Being Given Out.

GREAT JUMPING EVENTS

The Free-for-All Class Tuesday Night
Has Thirty-six Entries—Most of
the Contestants Are
Stars.

Box-holders for next week's horse show were applying to Secretary Warthen all yesterday for their tickets for Saturday matinee and expressed themselves as very agreeably surprised at receiving tickets for this attractive matinee. Those who are entitled to these tickets and have not already called to procure them are requested to do so at once, for otherwise they will be mailed or lost in transmission. **JUMP EVERY NIGHT.**

The impression seems to prevail to some extent that Heatherbloom, the champion high jumper, will appear only at the Wednesday matinee. This is a mistake. The programme has been so arranged that hunters and jumpers will be shown every night and in all these classes there are many celebrated horses and riders. Heatherbloom is entered in class 28, on Tuesday evening, in the open-to-all class of hunters in which there are thirty-five other entries, including such horses as Rifle, Chaplin, Hurler and many other famous names. On Tuesday night the programme for Tuesday night has been made very attractive and embraces exhibitions of fairs, tandems, ponies in harness, ladies' saddlers, runabouts and hunters.

Heatherbloom also entered in the double hunter class No. 33. Thursday night with Toronto as his jumping mate. On Saturday night the great jumper will go against his own official record of 7 feet 9 1/4 inches. He has made an even greater unofficial record, having cleared the bars at the great height of 8 feet 3 1/4 inches.

The Saturday matinee has also a very fine programme, including hunters, horses in harness, four-in-hand teams, hunters and a GREAT EVENT.

One of the greatest events of the entire show will be the open-for-all jumping class on Tuesday night, with its thirty-six entries. Such a field of star performers over the fences has never been gathered together on the continent before, perhaps. Besides Heatherbloom there are Toronto, Clasp Crow, Jack, all owned by Mr. Willett, of New York; Mr. Tennant's Jubilee, Mr. Porter's Forest King, son of the famous Blackbird; Mr. Donnelly's Rifle, Mr. Holway's Chapple and Free Lance, Mrs. Hurler's Hurler, Mr. Hurler's Amaret, Mr. Taylor's Grey, Mr. Hurler's Weatherbe, Lady Winsome, Mr. Smith's Garnet, Mr. Hurler's Chimpunk, Mr. Evans' La Touraine, Roger Brothers' Red Raven, Miss Selden's Jack of Diamonds, Mrs. Ditcher's Buck, Miss Young's Blitzen, Mr. Henderson's Hawthorn and Bo Bar, Morris & Joslin's Huntsman and Dancing, Mrs. Julia Morris' Janice, Mr. Passano's Colleen Bawn and Marjorie Long, and many others not less widely known.

In the ladies' saddle class there are nineteen entries, including such magnificent animals as Robin Adair, Kentucky Cardinal, Lady Olga, Petroleum, American Captain, Maple Leaf and many others.

The programme has been so arranged to close a trifle earlier than last year, if possible.

THEY LIKE VIRGINIA

Longest Consecutive Daily March Ever Made.

(Special to The Times-Dispatch.)
SALEM, VA., Oct. 7.—Captain C. P. Summerville, commanding the Third Battery of United States Artillery, the oldest battery in America, and which is now marching from Chickamauga Park, Ga., to Fort Meyer, Va., in an interview with The Times-Dispatch, said: "I have been in many sections of the United States, and I can sincerely say, that in my opinion, no part equals this in picturesque scenery, attractiveness, healthfulness and any of those desirable qualities which go to make a country worth trying to enjoy life in. No part of the great West has so many pleasing advantages as Virginia. In California, Washington, and Oregon nothing impresses one so much as this valley in Virginia. In these States one sees only fruit growing; here I see everything. Everywhere there is an air of productivity and prosperity; and the vigor and healthful appearance of the people impress me very much."

The present march of the Third Battery—from the target range 100 miles below Chickamauga, Ga., to Fort Meyer, Va., a distance of over 500 miles—is perhaps the longest and fastest consecutive day march ever made by any body of American soldiers. It is watched with much interest by the War Department.

HUBBARD-HUBBARD

An Interesting Event to the People of
Charles City.

(Special to The Times-Dispatch.)
ROXBURY, VA., October 7.—One of the most interesting events of the season was the marriage of Miss Mary Waddell Hubbard to Mr. Thomas Newton Hubbard, which took place this afternoon at 4:30 o'clock in Bethany Presbyterian Church. The bride was gown in a handsome traveling suit, with hat and gloves to match, and carried a large bouquet of white roses. She entered the church with her sister, Miss Mattie Hubbard, as maid of honor, and met the groom and his best man, Mr. J. Nemo Hubbard, at the altar.

Rev. William J. King, of Williamsburg, performed the impressive ceremony. The wedding gifts were numerous and handsome. Mrs. Hubbard is the oldest daughter of Mr. and Mrs. George T. Hubbard, and is one of our most popular and attractive young ladies. Mr. Hubbard is a prominent young merchant of Charles City county. Mr. and Mrs. Hubbard will make their home at Wilcox Wharf, Va.

HARDWICK SOT IN SELF-DEFENSE

Makes Statement in His Own
Behalf and Was Bailed
in Justice's Court.

(Special to The Times-Dispatch.)
WAIRSAW, VA., Oct. 7.—William Gordon, who was shot by Mr. F. B. Hardwick, of Kinsale, yesterday afternoon, died last night about 9 o'clock.

The coroner's jury this afternoon found that Gordon came to his death by a gunshot wound inflicted with a shotgun in the hands of a person unknown to the jury.

Later, Mr. Hardwick was given a preliminary hearing before Justices Newton and Unruh. The evidence was to the effect that William Gordon was in a saloon at the time of the shooting. In his testimony, Mr. Hardwick was ordered from the room. When Hardwick returned with the shotgun the negro at once sprang into his buggy and began a desperate struggle, choking and beating Mr. Hardwick, who fired the first shot merely to frighten him off, that the second shot, which was the one which took effect, was fired to protect his own life. The evidence as produced showed that the shooting was in self-defense.

Mr. Hardwick was bailed in the sum of \$500 for his appearance at Montross on the fourth Monday.

The case has excited intense interest throughout the Northern Neck, owing to the prominence of Mr. Hardwick.

(By Associated Press.)
WASHINGTON, Oct. 7.—Attorney-General Knox had a conference today with the President, at which it was decided to appoint William R. Pope as associate justice of the Supreme Court of New Mexico.

Alleged Discrimination.

(By Associated Press.)
WASHINGTON, October 7.—In a complaint filed with the Interstate Commerce Commission by the Griffin Grocery Company, of Griffin, Ga., the Southern Railway and the Central Railway of Georgia are charged with violation of the interstate commerce law in their favored treatment of their rates against Griffin and in favor of Macon, Dawson, Albany and Americus, Ga.
The complaint charges that the merchants of Griffin are by reason of the difference in rates, unable to satisfactorily compete with the other favored towns in the resumption of their merchandise, and manufactured goods to the detriment of the commerce of the town of 20,000 inhabitants, that they should naturally control.

THE HOWITZERS WERE INSPECTED

Colonel Jo Lane Stern Com-
plimented the Battery on
the Showing.

Something like a love feast graced and dignified the inspection of the Richmond Howitzers last night by Colonel Jo Lane Stern, assistant inspector general of Virginia.

About sixty of the men were out, all spick and span, in bright uniforms; some few were out of the city, but the attendance was very good. A fashionable and highly enthusiastic gathering filled the galleries. A number of girls and young ladies were present, and complimented the boys heartily, and then when it was all over went down and engaged with them in a dance that lasted until the wee small hours.

Colonel Stern was present and his inspection was rigid. His comments, however, were very pleasant and flattery. He complimented the battery and declared it to be about the largest in the State. It showed a net gain of one man over last year. He praised the men heartily and appeared well satisfied with the condition of the quarters, the pieces, and the equipment generally. Among the other prominent officers present were: Major C. O. Saville, Captain E. Jeter Basher, Captain Lorraine, and Captain C. Gray Bosseaux. The music was furnished by Thilow's Orchestra, and dancing was enjoyed.

In this eminently pleasant manner the friction between Colonel Stern and Captain Myers was smoothed away. The evening was a delightful one and was enjoyed by all.

MR. CHAMBERLAIN CONTINUES CAMPAIGN

(By Associated Press.)
LONDON, Oct. 7.—Continuing his fiscal campaign, Mr. Chamberlain to-night addressed a meeting of four thousand persons in the town hall of Greenock, a seaport on the Clyde, twenty-two miles from Glasgow. He spoke for an hour and a quarter and dealt particularly with the questions of retaliation and reciprocity. The Evening Standard, a staunch government organ, commenting on Mr. Chamberlain's speech, says: "Altogether his speech strengthens the conclusion that the movement has been premature and that the facts which are held to justify it have been closely collected and only half assimilated."

A Public Valet.

A man rushed into a Dearborn Street neckwear house, bought a clean collar, left the old one and went on his way. "It happens every day," said the clerk, "and makes me think that somebody is overlooking a good chance here in Chicago. I know of a couple of men in the city who are running a show that might well be called 'The Public Valet.' They don't carry much of a stock—just the things a man runs around in when he happens to want to be cleaned up for an evening engagement without going home. You can go in there and get a change in collars and neckties, have a bath and a shave, and get your clothes pressed. In the meantime, while the clothes are being fixed, you lounge around in a bath robe and get rested. There are lockers, too, and many men keep their dress suits there. It's a good scheme, and after I get my salary raised I think I'll save up and make a try of it."—Chicago Record-Herald.

FIGHT ON GROUT NOT IN COURTS

Effort to Get Him Off Fusion
Ticket Will Be Made Before
the Board of Elections.

(By Associated Press.)
NEW YORK, Oct. 7.—It is now said that the fight to protect Comptroller Grout, whom the fusionists seek to depose as their candidate, will not be made in the courts, but in the Board of Elections. It is pointed out that the Board of Elections, being bi-partisan and equally divided, can be deadlocked.

An afternoon paper says that Robert Roosevelt, uncle of President Roosevelt, is to be tendered the nomination for president of the borough of Manhattan. John Fox, president of the Democratic Club, has been asked, according to the same paper, to call upon Mr. Roosevelt in behalf of Tammany and tender him the place. Robert Roosevelt is a Democrat. The Evening Post says that Frederick Henriols gave assurances positively that he would accept the nomination for comptroller of the fusionist ticket in place of Grout. Mr. Grout declined to-day to either deny or confirm a report that he had intended to refuse the nomination. The report had been given him, none of them were true.

SHARK RAMMED DAHLGREN HARD

Hole Four Feet Long Was
Stove in the Boat by the
Submarine Vessel.

(By Associated Press.)
NEW YORK, Oct. 7.—The submarine torpedo boat Shark during a trial at Greenport, L. I., to-day rammed the torpedo boat Dahlgren, which with her crew of seven men barely escaped sinking.

Junior Lieutenant C. Nelson took the Shark out for a trial and steamed out into the middle of the bay, making several quick dives. When she reached the opposite shore she headed back for a long spin under water. The boat poked her nose under the surface and dove down, fifty-eight feet. It was planned to run 3 1/2 miles at the rate of six and one-half miles an hour. Those on shore who figured when she would rise, were becoming alarmed, when she did not appear, when suddenly she appeared less than twenty feet from the Dahlgren, which was lying at the dock. Lieutenant Nelson signaled to reverse her engines, but her headway was too strong and she crashed into the port side of the Dahlgren. Water immediately rushed into the Dahlgren and she settled alarmingly. The steam pump was set working and after half an hour's hard work got control of the water. An examination showed that a hole four feet long had been torn through the plates at the engine-room. The only mark on the Shark was the tearing of the paint from her ramming head.

Lieutenant Nelson said afterward that the strong ebb tide made the Shark momentarily unmanageable. He had to distance her to the surface a short distance from the Dahlgren, and prove the Shark's ability to run close to an enemy and then back quickly away.

SYNOD OF TENNESSEE

Gradual Decline of Young Men Offering
for the Ministry.

(Special to The Times-Dispatch.)
ASHEVILLE, N. C., Oct. 7.—The Synod of Tennessee of the Northern Presbyterian Church began its session last evening in Elizabeth Boyd-Memorial church. Professor B. B. Walker read the report on Ministerial Education, showing a gradual decline in the number of men offering themselves for the Gospel ministry. He thought the underlying cause was the indifference to the church in churches and the insufficiency of support given to ministers, young men being loth to enter a profession where constant sacrifices are necessary.

The Barksdale Law.

Editor of The Times-Dispatch:—Sir, I cannot understand Senator McIlwaine's position, that the Barksdale pure election law is not in force from the fact that it fails to state upon its face when it is to go into effect. Section 53 of the Constitution, that "No law except a general appropriation law shall take effect until after the adjournment of the session of the General Assembly, at which it is enacted," does not apply to this General Assembly, as it is mainly stated in section 18 of the schedule thus: "It shall be vested with all the powers, charges, duties and jurisdiction of the courts of the State, as prescribed by this Constitution in reference to the General Assembly, except in cases where the Constitution, which any of its acts shall take effect."

That part of the Constitution relating to the laws of the State, which is in section 18, does not apply to this General Assembly. One section of the schedule, the learned Senator must have overlooked. Section 1 reads:

"The common and stated laws in force at the time of the adoption of this Constitution, so far as not repugnant thereto or repealed thereby, shall remain in force until they expire, or are altered, amended or repealed by the General Assembly."

Now, the failure to state on its face the time when the law is to go into effect is not repugnant to the Constitution by reason of section 18 of the schedule. The law went into effect the last day of July, 1903. Of this I have never had a doubt.

THINGS THAT HAPPENED AND PROMPTLY TOLD

The Boone heirs claim that the Boone heirs are present, and several well known lawyers are taking part in the case. It will be a trial of some importance.

TORNADOES IN WEST KILL AND DESTROY

Three Dead, Two Fatally Hurt
and Fourteen Injured by
Storms in Kansas.

(By Associated Press.)
EMPORIA, KAN., Oct. 7.—Three persons killed outright, two fatally injured, and fourteen others more or less seriously hurt, with enormous property damage, is the net result of tornadoes that prevailed near Hamilton, Greenwood county, and near Alleville, in Coffey county, Kansas, last night. The town of Alleville, which has two hundred inhabitants, was practically demolished.

Wires were prostrated and the extent of the storm was not learned until late to-day. The list of casualties may yet be incomplete.

Heavy wind and rain storms were generally all over Central Kansas last night. With the exception of those near Hamilton and Alleville and vicinity, however, only minor damage resulted.

Right of Boats to Sell Liquor.

Editor of The Times-Dispatch:—Sir, I noticed in The Times-Dispatch some time ago that a question had been raised "whether a license to sell intoxicating liquors granted to a 'boat' gave the power to the said 'boat' to sell liquor at a wharf in a local option county." It seems to me there could be no difference of opinion on this subject. Under the "Main law" there were two transitory liquor licenses provided for, to-wit: Ship, boat and barge liquor license and sample liquor merchant license.

The first, which I shall call "boat license," shall be obtained from the County, Circuit or Corporation Court of the county within the limits and jurisdiction of which such "boat" usually piles or is usually stationed. Second, Sample liquor merchants license shall be obtained from the proper court of some city in the State, but when obtained the license shall carry the privilege of selling anywhere in the State. Now add the exception contained in the bill: "Provided, however, that this section shall not be construed as repealing any special act prohibiting the sale and manufacture of ardent spirits in any county, district or town, nor shall it be construed as allowing license to be granted in counties, districts or towns during such periods as under the local option statute the result of elections thereunder is against the granting of license to sell liquor."

No lawyer will pretend that a sample liquor merchant can sell liquor in a county which has voted against the sale of liquor, because the Legislature has specially reserved to those counties and districts voting thus the rights acquired by them under the local option or special laws.

Viewing the law in this light it seems to me perfectly plain that the statute in question gives the "boat" under the license granted her the right only to sell at wharves, creeks, rivers or towns in which liquor may be lawfully sold. Whether certain creeks or rivers in Tidewater Virginia are within the territorial jurisdiction of the counties or those shores they wash is another and distinct question, but whenever the "boat" is within the territorial jurisdiction of local option counties her power to sell ceases until she moves therefrom.

Says: "I Have Often Prescribed Pe-ru-na in My Practice. I Cheerfully Recommend It."

DR. JAMES CROZIER.

James Crozier, M. D., formerly U. S. Pension Office Medical Examiner, formerly Medical Board of Referee U. S. Pension Office, in a letter from Washington, D. C., says:

"I have often prescribed Peruna in my practice for catarrhal troubles, and after giving it a fair test I can cheerfully recommend your valuable remedy for coughs, colds and catarrh in its worst stages. It is also one of the best tonics I have ever prescribed."—James Crozier, M. D.

Dr. Leland Williamson, Yorktown, Ark., writes:

"Having used Peruna both personally and having prescribed it for my patients for many years, I thought I could not be out of place to write you a few lines of my experience with same. I have taken Peruna as a tonic and catarrh remedy and have used it in my practice with always the same result. It benefits the patient. It tones up and strengthens the various organs of the body, heals the catarrhal mucous membranes, and is a boon to suffering humanity. It is a fine spring tonic and a splendid remedy to ward off the day's crossing effects of a gripe, a good tonic after pneumonia or malarial fever."

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.
